For other fabrics, request quotation.

Design

Chipboard frame, rock wool filling, covered with fabric. One side has a clear glass whiteboard. Consideration should be given to the colour of fabric selected, as it will sit behind the glass board on which you write. You can choose different fabrics on either side of the absorption panel. Behind the glass whiteboard is a magnetic metal layer. The frame is made of steel painted black or white. The frame holds a shelf for markers and accessories. The wheels are lockable and 660 mm apart, so the wheels extend 330 mm on each side.

Specification text

Ex. Mezzo floor screen from Zilenzio 1,600x1,900, absorption panel with rock wool filling, magnetic glass whiteboard on one side and Cara fabric on both sides. White stand.
